

ROPE ACCESS SERVICES

3sun Group's rope access capabilities represent a dedicated service offering. They're a proven proposition when it comes to getting the job done safely, efficiently and professionally – and saving you time and money.

We possess the rope access expertise, breadth of technical knowledge and practical resources to deliver multi-disciplinary inspection, maintenance and repair worksopes in the most challenging of circumstances.

Whether onshore or offshore, whether in the renewables or oil and gas sectors, it's a combination of attributes that means performance excellence across a diverse range of rope access projects.

OUR GROUP

3sun Group is an international energy business, providing full turnkey solutions to customers in the oil and gas, renewables and marine sectors.

We provide the following specialist services:

OIL AND GAS

- **engineering** solutions incorporating consultancy and design
- conceptual design, manufacture and installation of **topside** and **subsea** control system products
- support and upgrading of legacy subsea production control systems
- brownfield **modifications** and retrofits including operations and maintenance support
- onsite **statutory inspection**, testing and certification for oil and gas plant and equipment
- technical and vocational **industry training** assuring workforce competency

RENEWABLES

- **installation, servicing and maintenance** of on and offshore **wind turbines**. Supply of skilled technicians, supervisory expertise and packaged solutions
- onsite **statutory inspection**, testing and certification services for renewables plant and equipment
- **engineering** solutions incorporating consultancy and design
- technical and vocational **industry training** assuring workforce competency

OUR CAPABILITIES

3sun Group possesses all the experience – and the credentials – to deliver rope access services that inspire confidence.

Spanning the range of group activities, they are delivered by skilled technicians equipped with a specialist combination of discipline-specific expertise and rope access competencies.

We are full IRATA (Industrial Rope Access Trade Association) accredited – the world's leading authority in this specialist area, and awarded formal accreditation: a signal to our clients that we have the procedures, skills and techniques to safely execute work at height.

More than that, we can perform rope access projects that require direct supervision by a level three IRATA-approved technicians.

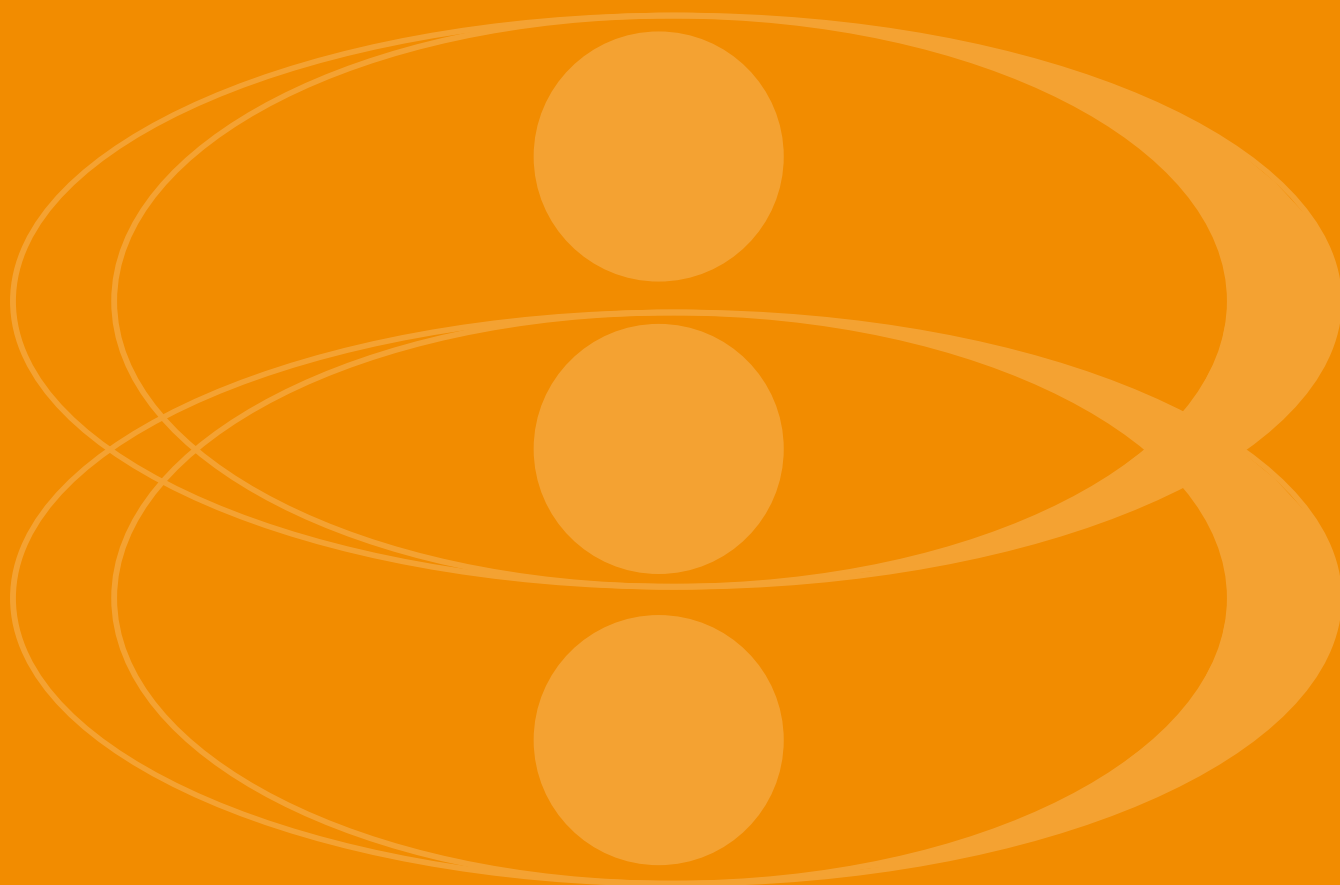

SERVICE HIGHLIGHTS

- Painting and blasting (approved by industry skills body OPITO)
- Non-destructive testing (MPI, DPI, UT and Eddy Current)
- Rigging (to LOLER standards and OPITO approved)
- Coded welding
- Plating
- Scaffolding (level two and advanced)
- Electrical (CompEx certified)
- Pipe fitting
- Blade inspection

Our services aren't just comprehensive, they're adaptable. We're ready to assemble bespoke solutions – at short notice if required – for projects of any scale and specification.

We already do so for clients who recognise the quality of our services and the advantages they bring: eliminating the costs associated with plant and mobile platform hire, faster execution of tasks, and safe access to otherwise-restricted operational areas.

Inspection, repair, maintenance, installation: you can trust 3sun Group's rope access services.
