

TRAINING SERVICES

Our training division - The Academy - adds a new dimension to the group's capabilities and client offering.

We're the specialist training arm of the company, delivering technical and vocational training to the energy, engineering and manufacturing industries.

Experienced, professional and supportive, we're more than an external service provider: for clients across the UK and Europe, we're a trusted and long-standing partner in workforce skills development.

ABOUT US

Since 1997 we've been delivering quality training to businesses that place a premium upon the skills, competency and qualifications of their people.

Our focus is upon assessing and verifying skills – to enhance safety and operational performance across your organisation.

Across our key areas of service delivery – **health & safety, vocational, technical, industrial, and bespoke courses** – we link and group our training portfolio by type, sector and industry.

The end result? A clear and structured view of our services to make the planning and implementation of your training programmes easy, efficient and effective.

TRAINING SERVICES

OUR CAPABILITIES

At the Academy, our quality management system accreditation ISO 9001: 2008 signals our commitment to excellence in everything we do. Across the company we have a track record of creating customised designs and solutions to match the needs and challenges presented to us by our clients. This principle is reflected in our training provision which has been built to specifically address the training and skills challenges faced by the energy engineering industry.

SERVICE HIGHLIGHTS

- **Health & Safety**
From one-day courses on a diverse range of topics, to the ECITB-accredited Client Contractor National Safety Group (CCNSG) 'passport' that represents a nationwide health and safety standard for site contractors.
- **Vocational**
Our range of ECITB engineering construction qualifications not only support skills development, but lead to recognised national vocational awards.
- **Technical Skills**
We help clients to identify skills deficits – then work to address them, equipping employees with the knowledge and ability to work safely and with technical competence.
- **Industrial**
Delivered within client premises to support the safe and effective operation of machinery and equipment.
- **Management & Supervisory**
Courses complement our technical training programmes, helping first-tier managers to bolster their existing skills in areas ranging from team development to appraisal skills.
- **Bespoke**
Our flexibility and breadth of experience enable us to deliver bespoke courses that meet the unique priorities of individual clients. We can adapt set programmes to reflect your specific requirements – for your workforce or your workplace.

OUR RESOURCES

Our training academy professionals – qualified practitioners in their areas of expertise – have many years' experience in the design and delivery of training. It means our services remain focused, relevant and effective.

We can deliver training across the UK and Europe which means we're ready to meet your training requirements where it suits you, whether in our specialist facilities or at your business premises.

We can tap into the experience and expertise of the wider 3sun Group to add new depth and breadth to our training capabilities. It means even greater choice and value for our Academy clients.
